FAQ

WHY SHOULD I OWN LANDS?

Lands are an essential aspect of the Meda Wars economy. The landowner will continuously produce resources needed to build structures, craft weapons, or upgrade your land. Use this **passive income** to build a powerful empire and maximize your benefits in Meda Wars. The landowner will also have a chance of getting exclusive NFT airdrops or even to find secret items hidden on his land.

CAN I OWN MORE THAN ONE LAND?

Yes, a player can own as many lands as he wants, but there will be a maximum of 21500 lands in Meda wars.

WHAT IF I DON'T OWN ANY LAND?

You can still play empire mode - mine resources, use structures, or use rented lands, but the landowner will collect fees for providing the service.

WHAT DO I NEED TO PLAY EMPIRE MODE?

A player needs to be a landowner or to own a Cryptomeda character.

HOW DO I COLLECT RESOURCES IN EMPIRE MODE?

A player needs to assign a Cryptomeda character to mine resources on the land. Each plot of land can have assigned only one Cryptomeda character. Resources can then be stored, sold, or used within the game.

FAQ

HOW MANY STRUCTURES CAN I BUILD ON MY LAND?

Each structure will need a certain number of construction slots to be able to build the structure. Rare and Legendary lands will have more construction slots than Common lands, thus more construction options.

CAN I SELL MY LAND?

Yes, lands will be tradable on the market. All structures and produced resources will remain the same only the landowner will be changed after the trade.

WHAT IS THE FORMAT OF LAND SALES?

Members will be able to buy NFT tickets representing lands. We aim to sell 30-40% of land tickets through our partnered platforms (Babylons, Altura, Seedify). Other 500 lands are reserved for the Cryptomeda staking platform and early landowners. We will sell the remaining land tickets on the Cryptomeda marketplace with TECH tokens.

CAN I CHOOSE THE EXACT POSITION OF MY LAND?

Tickets will be claimable for NFT lands with the exact position on the map when we finish land sales through partnered platforms.

WHAT ARE THE BENEFITS FOR EARLY LANDOWNERS?

Early landowners will be getting weekly airdrops (lands, collectible cards, weapons) via the lottery draw after we finish land sales through our partners. We will stop airdrop distributions when we launch Meda Wars.
